For the attention of:

**Barbara Loe Fisher**

**President of the National Vaccine Information Center**

Barbara, the 'About Us' section of the NVIC website notes: "***We support the availability of all preventive health care options, including vaccines, and the right of consumers to make educated, voluntary health care choices.***" <http://www.nvic.org/about.aspx>

**I suggest the NVIC is failing in this stated mission as you have ignored the issue of children being possibly needlessly over-vaccinated with the second dose of live Measles/Mumps/Rubella (MMR) vaccine.**

I first brought this matter to your attention [back in September 2013](#) when I forwarded you [my letter to Paul Offit](#) regarding the arbitrary second dose of the live MMR vaccine. I was most disappointed to receive a response from Gina Bernazzani (17 September 2013) advising you weren't 'available' to critique my letter to Paul Offit.

Since that time, no doubt millions of children around the world have been over-vaccinated with the second dose of live MMR vaccine, a medical intervention which may have been unnecessary, particularly for the measles and rubella components.

I have now brought this matter to the attention of a number of people. I am appalled by the obstructionism I have encountered on this matter, **and the reluctance to properly inform parents and other individuals of the option of antibody titre testing to verify immunity after the first dose of live MMR vaccine.**

I have collected together my letters and emails on this topic, including my email to you, on my website on this webpage: <http://over-vaccination.net/letters-challenging-over-vaccination/measlesmumpsrubella-mmr-live-vaccine/>

**Most recently I have forwarded an email (see below) and attached letter to Secretary Sylvia Mathews Burwell, US Department of Health and Human Services, challenging the mandated second dose of live Measles/Mumps/Rubella vaccine, and lack of information about antibody titre testing. My letter is also accessible via this internet link: <http://users.on.net/~peter.hart/Letter to Sylvia Mathews Burwell HHS re MMR second dose.pdf>**

**In particular, I think it is important to consider NVICP Authorizing Legislation Sec. 300aa-26 in regards to mandated vaccination, and also [The Antibody Titer Law \(Holly's Law\)](#) in regards to MMR over-vaccination. How can 'informed consent' be given to a medical intervention that is mandated? There is a real tension here, and it needs to be highlighted.**

Barbara, given the NVIC's stated mission to "***support the availability of all preventive health care options, including vaccines, and the right of consumers to make educated, voluntary health care choices***", I request that the NVIC consider the arguments made in my letter to Secretary Burwell.

I request your response on this matter.

Yours sincerely  
Elizabeth Hart

Subject: Merck MMRII Vaccine and NVICP Authorizing Legislation Sec. 300aa-26 Vaccine Information

To: [Sylvia.Burwell@hhs](mailto:Sylvia.Burwell@hhs)

**For the attention of:**

Secretary Sylvia Mathews Burwell  
US Department of Health and Human Services

Secretary Burwell

Please see attached [a letter](#) questioning the National Vaccine Injury Compensation Program (NVICP) Authorizing Legislation and the government-mandated **second dose** of Merck Measles/Mumps/Rubella (MMR) live vaccine.

I suggest **NVICP Authorizing Legislation Sec. 300aa-26 Vaccine Information** is being contravened, i.e. relevant vaccine information re the Merck MMR vaccine is not being provided, i.e. the option of antibody titre testing to verify immunisation after vaccination with the **first dose** of live MMR vaccine, before the **second dose** of live MMR vaccine. **As a result 'informed consent' is not being properly obtained before this medical intervention, and it is likely many children are being over-vaccinated with the government mandated second dose of live MMR vaccine.**

I understand that this matter falls within your area of responsibility. **In this regard, I request your urgent response to my detailed letter attached.**

Yours sincerely  
**Elizabeth Hart**
