Collected: 11/07/2012 :

Specimen:

Test name: RUBELLA VIRUS SEROLOGY

Requested: 11/07/2012

Performed: 11/07/2012

Test name: RUBELLA VIRUS SEROLOGY

Provider name: Institute of Medical and Veterinary Science

Institute of Medical and Veterinary Science (Lab ref: 13-24751233-108)

Clinical notes: Monitoring.

Request Number	Collection Date	Specimen Type	Rubella IgG antibody	Rubella IgM antibody
13-24751233-108	11/07/12	Blood	DETECTED (185 IU/ml)	

The patient is immune.

A rubella antibody level of 10 IU/mL or greater is considered necessary to ensure adequate immunity to rubella.

From May 21st 2012, this test is performed on the Centaur.

This request has other tests in progress at the time of reporting.
